

VALUADATA

New section diagrams

New section diagrams in the VALUADATA system

In our ongoing efforts to provide our users with the best and most complete tool to support their daily operations and make the appraisal process ever more streamlined and precise, we have developed, in conjunction with the Technology Research & Development Center, **CIDET**, two special new section diagrams to cover vehicle Air Conditioning and Exhaust Systems.

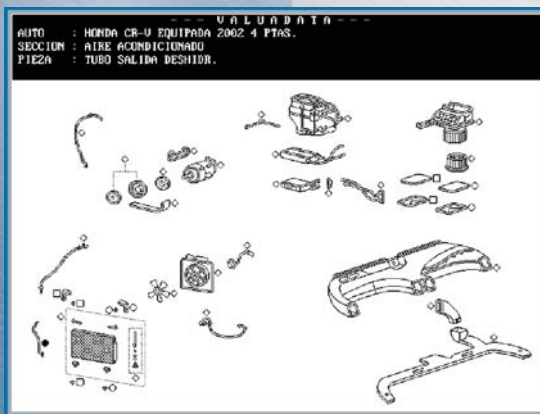

These new modules, as well as being offered independently and containing a greater quantity of components, have also been enhanced regarding the technical criteria used to calculate the valuations, namely: labor, materials, tools, equipment, and subcontracted work. And, as usual with our system, materials such as refrigerant gas for the air conditioning, engine coolant, brake fluid, oils and lubricants and other items necessary for vehicle repair are included in the valuation results produced by the **VALUADATA** system.

SELECCION DE SECCIONES

| SECCIONES | SELECCIONADAS |
|----------------------|----------------------|
| FRONTAL | FRONTAL |
| DELANTERA | DELANTERA |
| MEDIA | MEDIA |
| TRASERA | TRASERA |
| BASTIDORES | BASTIDORES |
| INTERIORES 1 | INTERIORES 1 |
| INTERIORES 2 | INTERIORES 2 |
| INTERIORES 3 | INTERIORES 3 |
| SUSPENSION DELANTERA | SUSPENSION DELANTERA |
| SUSPENSION TRASERA | SUSPENSION TRASERA |
| DIRECCION | DIRECCION |
| FRENOS | FRENOS |
| TRANSMISION | TRANSMISION |
| AIRE ACONDICIONADO | AIRE ACONDICIONADO |
| SISTEMA DE ESCAPE | SISTEMA DE ESCAPE |
| FIN | |

This important change in the presentation of the new section diagrams also marks the future separation of valuation reports for the different suppliers involved in this type of repairs, namely the subcontract work, which requires specialized suppliers different from those that perform body repairs. We have also added another module which will include the engine and its accessory items. We are sure that all these changes will be very useful and advantageous to our users.

We have already integrated the new Air Conditioning and Exhaust System modules for some models from the Volkswagen, Nissan and Honda lines. In future system updates we will continue to include them for other models and lines.
